COMPANY PROFILE

We **BAKSHISH ENG. WORKS** Company was established in 2014 and is a technology-driven **Manufacturer, Distributor & Exporter** of high-performing **Ultra Modern Rice Mill Machinery** like Paddy Pre Cleaner, Paddy D-Husker, Paddy Husk Fan, Paddy Separator, Vertical Rice Whitener, Rice Silky Machine, De Stoner, S-Band, Blower, Cyclone, Plan Shifter-3 Tier, Rice Length Grader, Power Reel and Bucket Elevator and so on.

These machines are designed for efficient performance in various industrial applications. With our range, we aim to enhance productivity of many industries ranging from mills to processing units. Our product-line embodies exceptional engineering concept and advanced technology. Further, we make continuous efforts in order to detect possibilities of improvement in our product-line with the emerging demands.

We have good quality and management system. We have enough technical and management staff, enough machinery and measuring devices. Our staffs have good technical and management experience in their respective fields

PADDY PRE-CLEANING SYSTEM

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWPPCS 01	5-8 Ton/Hr.	8-10 H.P

Features

1. Suitable of all kinds of paddy.
2. Three stage cleaning.
3. Easy for installation & usage.
4. Low maintenance & low power consumption.
5. Top mounted air extraction unit for best aspiration

PNEUMATIC DE-HUSKER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWPDH02	2-3, 3.-5 Ton/Hr.	10-15 H.P

Features

1. Fully automatic & easy to operate
2. Higher capacity in low power consumption.
3. Fewer Broken.
4. Higher life of rubber rolls.
5. Quick rubber roll exchange.

PADDY DE-STONER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWDS03	2-8, Ton/Hr.	3-5 H.P

Features

1. Both for paddy and rice.
2. Easy for installation & usage.
3. Higher production in low power consumption.
4. Automatic stone discharge system by a cyclone.
5. Light weight small body.

HUSK ASPIRATOR

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWHF04	5-8 Ton/Hr.	8-10 H.P

Note : Only on Order

Features

1. A machine that process husk by grinding or crushing
2. Easy for installation & usage.
3. Higher production in low power consumption.
4. Light weight small body.

PADDY SEPARATOR

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWPS05	1-5 TON/HR	3 H.P (60 BOX)
BEWPS06	2-2.5 TON/HR	3 H.P (72 BOX)
BEWPS07	2.5-3 TON/HR	3 H.P (72 BOX)

Features (PSB)

1. Suitable for all kinds of paddy.
2. Highly efficient for accurate separation.
3. Low maintenance & low power consumption.

Note : Only on Order

PADDY SEPARATOR (Butterfly)

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWPSB 08	3.5-4 Mt./Hr.	3 H.P
BEWPSB 09	5-8 Mt./Hr.	5 H.P

Features (PSB)

1. Suitable for all kinds of paddy.
2. It is having a special feature that it has sensor controlled operating mechanism to get uniform performance.
3. It has double side tray type oscillation
4. Low maintenance & low power consumption.

Note : Only on Order

RICE CONE POLISHER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWRCP10	2.5 TON/Hr.	Main Shaft

Features

1. Heavy C.I. frame work
2. Higher production, Fewer broken.
3. Special 4" standard taper size.
4. Can be atomized for removal of other impurities.
5. Available in different size (18",24",30",36",40") inches

Ready-made Cone Size :
 30"x19"/20"x4"
 36"x18"/20"x4"
 40"x20"x4"

VERTICAL RICE WHITENER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWVRW011	2.5-5 TON / Hr.	30-50 H.P.

Features

1. High speed rice whitening mechanism under negative aspiration.
2. Efficient removal of bran during whitening.
3. Several arrangement for different quality of rice.
4. Adjustable air volume.
5. Higher milling yield & less broken.

SILKY MACHINE

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWSM 012	2-5, Ton/Hr.	40-50 H.P

Features

1. Alloy steel screw feeder and batter for long life.
2. A special direct airjet to minimize the breakage of rice.
3. Specially designed batter for high degree of glazing.
4. A special water jet device.

PLANT SHIFTER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWPS013	3-5 Ton/Hr.	9-10 H.P

Features

1. Suitable for all kinds for rice.
2. Three stage separation.
3. Easy for installation & usage.
4. Low maintenance and low power consumption
5. Top mounted air extraction unit for best aspiration.

RICE GRADER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWRG014	1 Ton/Hr.	1 H.P

Features

1. Easy to Operator.
2. Higher Production.
3. Compact Size.
4. Accurate & Efficient Separation of Grain.
5. Higher Efficiency as compare to other Graders.

RICE DE-STONER

TECHNICAL SPECIFICATIONS :

MODEL	CAPACITY	POWER
BEWPS15	2-5, TON/HR.	1-2 HP

Features

1. Both for paddy and rice.
2. Easy for installation & usage.
3. Higher production in low power consumption.
4. Automatic stone discharge system by a cyclic.
5. Light weight small body.

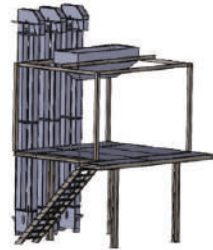

S-Band for Bran

BEWSB 16 2.5 Mt./Hr. 2-5 H.P

Sortex Dust Blower

BEWSB 17 2-3 H.P

Sortax Folding Structure

BEWSFS 18 Available in all Sortax Sizes
With Dust Cleaner Fine Cleaner Elevator

Rice Bran Blower

Technical Specifications :

MODEL	CAPACITY	POWER
BEWRBB019	Unlimited	3-20 H.P.

Elevator

Technical Specifications :

MODEL	CAPACITY	POWER
BEWE019	Unlimited	2-3 H.P.

Features

1. It is strengthly, non corrosion, non sparking & extraordinary tough.
2. It has cleaner discharge and flexible faster.
3. It has long lasting and durable.
4. It has less wear and tear of transmission belt.
5. When power failure the belt and bucket won't come back, due to reverse locking system (optical)
6. Low maintenance, low power consumption and easy to operate.

Flour Mill Plant Cap. 3 Qtl. to 2 TPH

⑥ Husk Grinder Cap. 2 Qtl. to 1.5 TPH

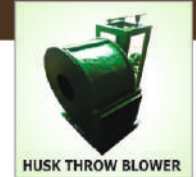

Paddy Parboiling Plant

CAPACITY

18 TON/ BATCH

24 TON/ BATCH

32 TON/ BATCH

Manufacturer, Distributor & Exporter :
